SCOPE OF THE JOURNAL

International Journal of Electromagnetics invites high quality manuscripts in the research areas of electromagnetic modelling, analysis and implementation. The journal proposes to stimulate the development of latest technology in industry and academia. Good quality review papers and short communications are also acceptable.

Topics of interest include, but are not limited to the following:

- Electric Power Line
- Electrical Machine
- Electromagnetic Breaker
- Electromagnetic Communication
- Electromagnetic Compatibility (EMC)
- Electromagnetic Devices
- Electromagnetic Field Theory
- Electromagnetic Interferences (EMI)
- Electromagnetic Inverse Problems
- Electromagnetic Launch
- Electromagnetic Material Modeling
- Electromagnetic Measurement Technology and Instruments
- Electromagnetic Metamaterials
- Electromagnetic Nondestructive Testing
- Electromagnetic Numerical Analysis
- Electromagnetic Physics
- Electromagnetic Propagation in Microstrip lines
- Electromagnetic Solid Mechanics
- Electromagnetic Structure Optimization
- Electromagnetic Study in Antennas
- Electromagnetism and Medical Devices
- Electromagnetism in Medical Research
- Electromyography
- Interconnects

- Magnetic Fluid
- Novel Materials for Transmission lines
- On-Chip and Off-Chip EMC
- Optics
- Transmission Lines

Paper Submission & Manuscript preparation Guide

Paper Submission

Authors are invited to submit papers for this journal through E-mail ijeljournal@airccse.com. Submissions must be original and should not have been published previously or be under consideration for publication while being evaluated for this Journal. For paper format download the template in this page

Process

Submissions are accepted for review with the understanding that the same work has been neither submitted to, nor published in, another publication. Simultaneous submission to other publications will result in immediate rejection of the paper. Papers are not within the journal scope will be rejected immediately after the pre review process.

All manuscripts will be subject to a well established, fair, unbiased peer review and refereeing procedure, and are considered on the basis of their significance, novelty and usefulness to the Journals readership. The reviewing structure will always ensure the anonymity of the referees & it will be reviewed by 3 experts in the field. The review output will be one of the following decisions:

1. Accept
2. Accept with minor changes
3. weak Accept with major changes
4. Reject

The review process may take approximately two ~ three months to be completed. The Editor reserves the right to reject a paper if it does not meet the aims and scope of the journal, it is not revised well.
