

International Journal of Antennas (JANT)

<http://aircse.com/jant/index.html>

SCOPE OF THE JOURNAL

International Journal of Antennas is a peer-reviewed, open access journal that publishes original research as well as review articles in the field of antennas and its allied domain. This journal aims to bring together leading academic scientists, researchers, engineers and research scholars to exchange and share their experiences and research results in their specialized arena in antenna engineering. The journal invites good quality research and review papers for publications.

Topics of interest include, but are not limited to, the following:

- Microwave and Millimeter waves Antennas
- Antenna Theory and Radiation
- Microstrip and Printed Antennas
- Arrays of Antennas
- Electromagnetic Signal Processing and Wavelets in Electromagnetic
- Artificial Intelligence Techniques in Electromagnetics
- Mobile Antennas, Conformal Antennas and Smart Antennas
- Nano Technology and Nano Antennas, Integrated and Optical Antennas
- Dielectric Resonator Antennas
- Application Based Antennas
- Artificial Material Based Antennas
- Smart and MIMO Antennas
- Antenna Modeling and Measurements
- Microwave Holography
- Radar and Satellite Communication
- Channel Modeling and Propagation
- THz Technology and THz Antennas
- EM Field Theory and Simulation Techniques and Numerical Techniques
- Microwave Devices and Components Design and Techniques
- Remote Sensing of the Earth, Ocean, and Atmosphere
- Metamaterials, Frequency Selective Surfaces (FSSs), Electromagnetic Bandgap (EBG) Structures and Fractal Techniques in Electromagnetics.
- Applied Electromagnetics and others

Paper Submission & Manuscript preparation Guide

Paper Submission

Authors are invited to Submit papers for this journal through [Submission system](#). Submissions must be original and should not have been published previously or be under consideration for publication while being evaluated for this Journal. For paper format download the template in this page

Review Process

Submissions are accepted for review with the understanding that the same work has been neither submitted to, nor published in, another publication. Simultaneous submission to other publications will result in immediate rejection of the paper. Papers are not within the journal scope will be rejected immediately after the pre review process..

All manuscripts will be subject to a well established, fair, unbiased peer review and refereeing procedure, and are considered on the basis of their significance, novelty and usefulness to the Journals readership. The reviewing structure will always ensure the anonymity of the referees & it will be reviewed by 3 experts in the field. The review output will be one of the following decisions:.

1. Accept
2. Accept with minor changes
3. weak Accept with major changes
4. Reject

The review process may take approximately two ~three months to be completed. The Editor reserves the right to reject a paper if it does not meet the aims and scope of the journal, it is not revised well. Not revised well.
