## SCOPE OF THE JOURNAL

Advanced Nanoscience and Technology: An International Journal (ANTJ) is a peer-reviewed, open access journal, addresses the impacts and challenges of Nanoscience and Technology. The journal documents practical and theoretical results which make a fundamental contribution for the development of Nanoscience and Technology.

This journal aims to bring together researchers and practitioners in all Nano aspects, including (but not limited to):

### Topics of Interest include, but are not limited to, the following

- Micro / Nano Fabrication and Metrology
- Micro / Nano Heat Transfer and Energy Information Technology,
- Micro / Nano Sensors , Actuators and Systems Nanobionics
- Micro / Nanofluidics and Bio Chips
- Modeling and Simulation
- Molecular Sensors, Actuators and Systems
- Nano and Molecular systems
- Nano Robotics, Assembly and Automation
- Nanobio informatics, Nanomedicine
- Nanobiology / Nanobiomechanics / Nanobiotechnologies
- Nanocatalysis
- Nanoelectronics
- Nano-Graphene
- Nanomaterials, Nanodevices: Fabrication, Characterization and Application
- Nanomedical Applications: Drug Delivery, and Tissue Engineering
- Nanophotonics
- Nanotechnology and Agriculture / Coating / Education / Energy
- Nanotechnology and Environment / Polymer
- Nanotechnology, Products and Markets
- Societal aspects of Nanotechnology: Ethics, Risk Assessment, Standardization

## **Paper Submission & Manuscript preparation Guide**

### **Paper Submission**

Authors are invited to submit papers for this journal through E-mail [antj\\_journal@airccse.com](mailto:antj_journal@airccse.com). Submissions must be original and should not have been published previously or be under consideration for publication while being evaluated for this Journal. For paper format download the template in this page

### **Process**

Submissions are accepted for review with the understanding that the same work has been neither submitted to, nor published in, another publication. Simultaneous submission to other publications will result in immediate rejection of the paper. Papers are not within the journal scope will be rejected immediately after the pre review process.

All manuscripts will be subject to a well established, fair, unbiased peer review and refereeing procedure, and are considered on the basis of their significance, novelty and usefulness to the Journals readership. The reviewing structure will always ensure the anonymity of the referees & it will be reviewed by 3 experts in the field. The review output will be one of the following decisions:

1. Accept
2. Accept with minor changes
3. weak Accept with major changes
4. Reject

The review process may take approximately two ~ three months to be completed. The Editor reserves the right to reject a paper if it does not meet the aims and scope of the journal, it is not revised well.
