SCOPE OF THE JOURNAL

Electrical Engineering: An International Journal (EEIJ) is a Quarterly peer-reviewed and refereed open access journal that publishes articles which contribute new results in all areas of Electrical Engineering. The journal is devoted to the publication of high quality papers on theoretical and practical aspects of Electrical Engineering.

The goal of this journal is to bring together researchers and practitioners from academia and industry to focus on advancements, and establishing new collaborations in these areas. Original research papers, state-of-the-art reviews are invited for publication in all areas of Electrical Engineering.

Topics of Interest

- Advanced Power System and Control system
- Analog and digital circuit design
- Applied Electromagnetics
- Artificial Intelligence and Artificial Life
- Bio Informatics
- Biomedical Instrumentation
- Communications and Networks
- Control, Intelligent Systems and Robotics
- Digital signal processing
- Embedded Systems and Robotics
- Hardware Formal Verification
- Information systems and network security
- Integrated Circuits and Embedded Systems
- Mechatronics and Avionics
- Microelectronic Technologies, Devices, CAD
- Microwave, Nano Devices and RF
- Non Conventional Energy Resources
- Optical Networks & communication
- Optimization techniques
- Photonics
- Power and Energy Systems
- Power Electronics & Electric Drives
- Remote sensing and satellite communication
- RF and Microwave Engineering
- Semiconductor Devices
- Sensor technology & Virtual Instrumentation
- Signal Processing and New Media
- Soft computing / Nano computing / Grid computing
- Software Engineering and Real-time Systems
- System Modeling & Simulation

Review Process

Submissions are accepted for review with the understanding that the same work has been neither submitted to, nor published in, another publication. Simultaneous submission to other publications will result in immediate rejection of the paper. Papers are not within the journal scope will be rejected immediately after the pre review process.

All manuscripts will be subject to a well established, fair, unbiased peer review and refereeing procedure, and are considered on the basis of their significance, novelty and usefulness to the Journals readership. The reviewing structure will always ensure the anonymity of the referees & it will be reviewed by 3 experts in the field.

The review output will be one of the following decisions:

1. Accept
2. Accept with minor changes
3. Weak accept with major changes
4. Reject

The review process may take approximately two ~three months to be completed. The Editor reserves the right to reject a paper if it does not meet the aims and scope of the journal, it is not revised well.

Publication charges: 120 USD (Maximum 20 pages)
